

THE LIGHT FOR THOSE WHO
DON'T THINK ABOUT CAMPING
WHEN THEY TALK ABOUT TENTS

XPLIGHT[®]
BY CARPETLIGHT

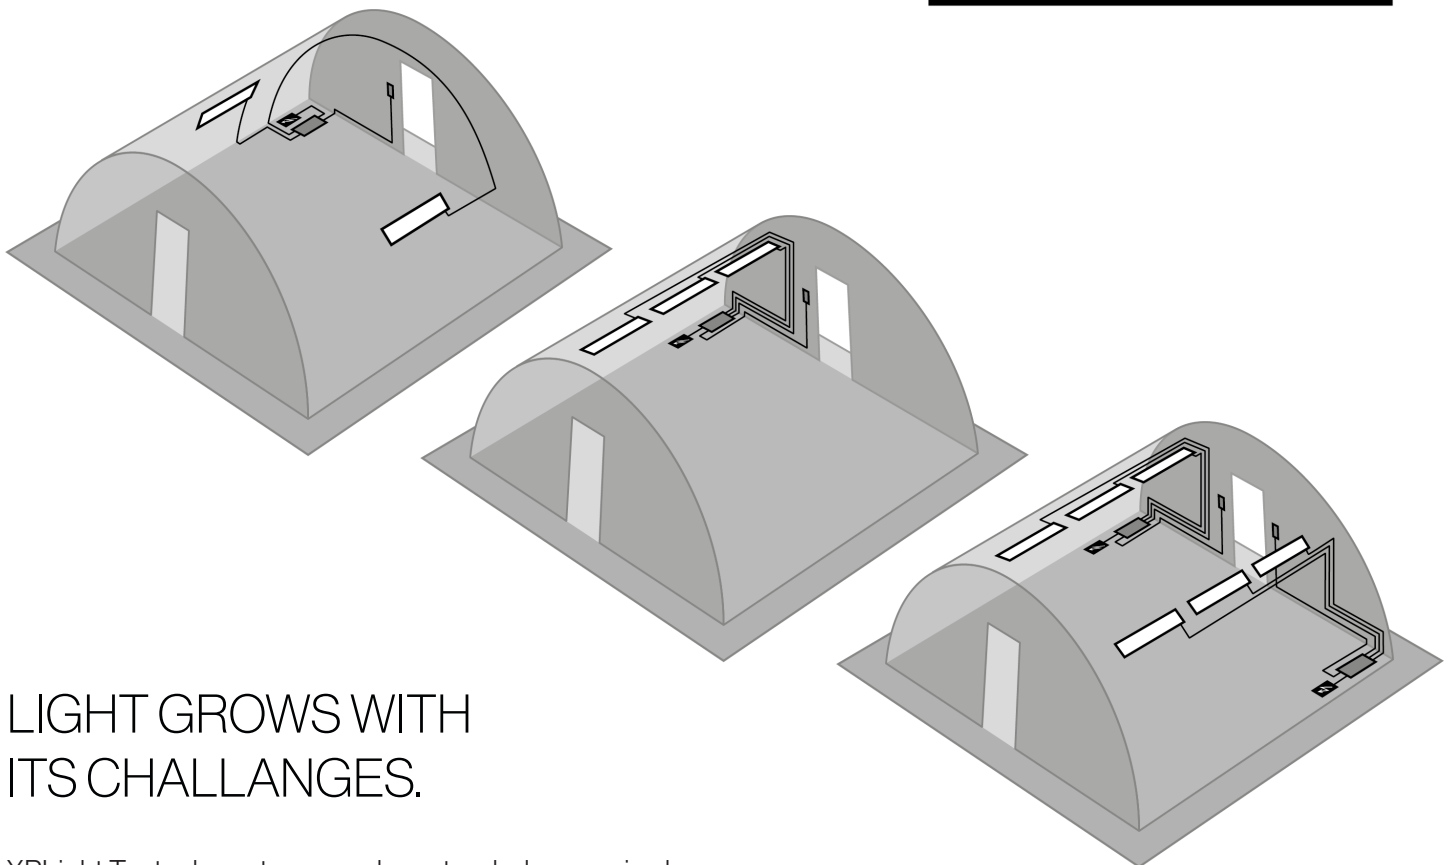

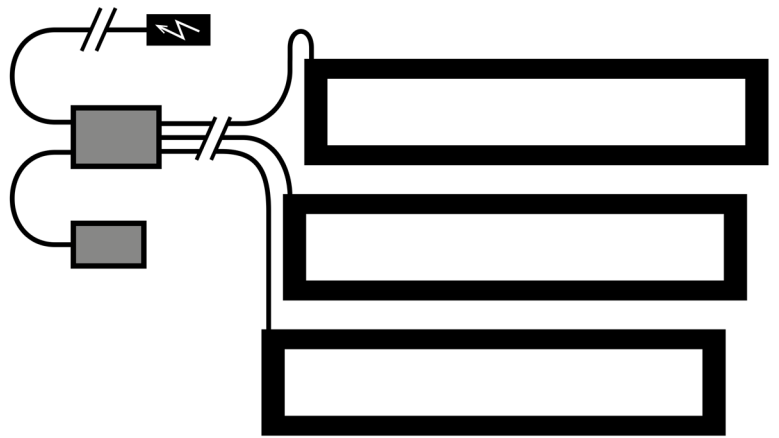

XPLight Tentacle 640

Our XPLight Tentacle lights are as mobile, flexible and light as tent walls. But unlike tents, you only have to set them up once. This is because you can simply leave the handy and powerful lighting systems on the tent ceiling during assembling and dismantling.

SET UP,
PLUG IN,
SHINE.

The XPLight Tentacle system is easy as one two three.

LIGHT GROWS WITH
ITS CHALLENGES.

XPLight Tentacle systems can be extended as required and can therefore be integrated into all types and sizes of functional tents. For tent manufacturers, pre-installation in their products is also possible.

TEN TIMES FASTER?
WOULD BE AN UNDERSTATEMENT.

3 kilos instead of 40 kilos. 2 minutes assembly time instead of 30 minutes.
For everyone who needs time for more important things.

FEATURES

Can be bent and crushed over 20.000 times, IP67, with white and red light.

Easy to hang with eyelets, Velcro or Bungee cords.

With remote control, dimmable and switchable.

The power supply is waterproof and supplies 24 volts.

Can be operated with all 24 volt connections.
Up to 3 lights simultaneously.
